

## CONTENTS

## VOLUME 12 (1971)

Mutagenesis of bacteriophage T4 by a carcinogen, 4-nitroquinoline 1-oxide by MINORU ISHIZAWA AND HIDEYA ENDO (Fukuoka, Japan) (Rec'd August 25th, 1970) . . . . .	1-8
The photodynamic inactivation of $\lambda$ bacteriophage particles in the presence of methylated proflavine by A. JAFFE-BRACHET, N. HENRY AND M. ERRERA (Rhode St. Genèse, Belgium) (Rec'd October 13th, 1970) . . . . .	9-14
More on mutants with altered DNA's by BENEDICT L. WASILAUSKAS, JOE E. COWARD, PAUL D. ELLNER AND HERBERT S. ROSENKRANZ (New York, N.Y.) (Rec'd October 26th, 1970) . . . . .	15-19
The mutagenic and lethal effects of monofunctional methylating agents in strains of <i>Haemophilus influenzae</i> defective in repair processes by R. F. KIMBALL, JANE K. SETLOW AND MINI LIU (Oak Ridge, Tenn.) (Rec'd December 7th, 1970) . . . . .	21-28
The random (non-specific) forward mutational response of gene loci in <i>Aspergillus conidia</i> after photosensitisation to near ultraviolet light (365 nm) by 8-methoxypsoralen by B. R. SCOTT AND T. ALDERSON (Harwell, Didcot, Berks., Great Britain) (Rec'd October 12th, 1970) . . . . .	29-34
Hydroxylamine-induced purple adenine ( <i>ad-3</i> ) mutants in <i>Neurospora crassa</i> I. Characterization of mutants by genetic tests by H. V. MALLING AND F. J. DE SERRES (Oak Ridge, Tenn.) (Rec'd January 12th, 1971) . . . . .	35-46
Identification of the genetic alteration at the molecular level of ultraviolet light-induced <i>ad-3B</i> mutants in <i>Neurospora crassa</i> by B. J. KILBEY, F. J. DE SERRES AND H. V. MALLING (Oak Ridge, Tenn.) (Rec'd December 24th, 1970) . . . . .	47-56
Change in complementation patterns and enzyme activity of <i>pyrimidine-3</i> mutants of <i>Neurospora crassa</i> by induced reversion by ALAN RADFORD (Los Angeles, Calif.) (Rec'd January 5th, 1971) . . . . .	57-64
Two types of dose-response curve in <i>Arabidopsis thaliana</i> after the action of nitrosamines by J. VELEMÍNSKÝ AND T. GICHNER (Prague, Czechoslovakia) (Rec'd November 18th, 1970) . . . . .	65-70
A quantitative study of ethyl methanesulfonate-induced alkylation of <i>Vicia faba</i> DNA by STEPHEN E. SCALERA AND OSCAR G. WARD (Tucson, Ariz.) (Rec'd November 5th, 1970) . . . . .	71-79
Lifetime reproductive capacity in offspring of an irradiated mouse population by WILLIAM SHERIDAN (Stockholm, Sweden) (Rec'd November 6th, 1970) . . . . .	81-90
The cytogenetic effect of rubidomycin <i>in vivo</i> in rats by MOGENS KROGH JENSEN AND PREBEN PHILIP (Lyngby and Copenhagen, Denmark) (Rec'd October 19th, 1970) . . . . .	91-96
Visualization of achromatic lesions (gaps) induced by X-rays in chromosomes of <i>Vicia faba</i> by staining of chromosomal proteins by W. SCHEID AND H. TRAUT (Münster, Germany) (Rec'd December 14th, 1970) . . . . .	97-99
The induction by X-rays of double mosaics involving the Y-chromosome, supporting first cleavage segregation in <i>Drosophila melanogaster</i> by F. H. SOBELS AND B. LEIGH (Leiden, The Netherlands) (Rec'd January 18th, 1971) . . . . .	100-101
Caffeine potentiation of the lethal action of alkylating agents on L-cells by I. G. WALKER AND B. D. REID (London, Ont., Canada) (Rec'd February 2nd, 1971) . . . . .	101-104

5-BU sensitization to UV-induced killing and mutability in <i>hcr</i> <sup>+</sup> and <i>hcr</i> <sup>-</sup> strains of <i>Escherichia coli</i> by YU. S. KONDRATIEV AND A. G. SKAVRONSKAYA (Moscow, U.S.S.R.) (Rec'd December 4th, 1970) . . . . .	105-108
Induction of chlorophyll mutations by deuterium oxide (D <sub>2</sub> O) in <i>Oryza sativa</i> L. by D. M. RAO, T. P. REDDY AND G. M. REDDY (Hyderabad, A. P., India) (Rec'd January 4th, 1971) . . . . .	109-111
Announcement . . . . .	112
Cross-linking of nucleohistone by nitrous acid by N. DASAN POTTI AND JAKE BELLO (Buffalo, N.Y., U.S.A.) (Rec'd November 27th, 1970) . . . . .	113-119
Deoxyribonucleic acid replication in UV-damaged bacteria revisited by C. O. DOUDNEY (Philadelphia, Pa., U.S.A.) (Rec'd November 9th, 1970) . . . . .	121-128
Mutagen specificity in <i>Neurospora crassa</i> by F. J. DE SERRES, H. E. BROCKMAN, W. E. BARNETT AND H. G. KOLMARK (Oak Ridge, Tenn., U.S.A.) (Rec'd December 29th, 1970) . . . . .	129-142
Mosaicism and lethal sectoring in G <sub>1</sub> cells of <i>Schizosaccharomyces pombe</i> by ANGELO ABBONDANDOLO AND SILVANA SIMI (Pisa, Italy) (Rec'd February 25th, 1971). . . . .	143-150
Ethyl methanesulfonate-induced mutations of the Sh <sub>1</sub> protein in maize by PREM S. CHOUREY AND DREW SCHWARTZ (Bloomington, Ind., U.S.A.) (Rec'd December 29th, 1970) . . . . .	151-157
The proportion of complete mutations, mosaics and instabilities induced by ethylnitrosourea in <i>Drosophila melanogaster</i> by M. ONDŘEJ (Prague, Czechoslovakia) (Rec'd February 22nd, 1971) . . . . .	159-169
Spontaneous somatic reversion in mice Effects of parental genotype on stability at the <i>p</i> -locus by ROGER W. MELVOLD (Lawrence, Kansas, U.S.A.) (Rec'd January 12th, 1971) . . . . .	171-174
Influence of selection, non-uniform cell population and repair on dose-effect curves of genetic effects by G. B. GERBER AND A. LÉONARD (Mol, Belgium) (Rec'd December 22nd, 1970). . . . .	175-182
The effects of <i>N</i> -methyl- <i>N'</i> -nitro- <i>N</i> -nitrosoguanidine and streptozotocin on mammalian cell cultures by FRANCES KELLY AND MARVIN LEGATOR (Washington, D.C., U.S.A.) (Rec'd November 17th, 1970) . . . . .	183-190
Differential susceptibility of two cell types to the chromosome-breaking effects of adenovirus type 5 by WARREN W. NICHOLS, ALBERT LEVAN, LARS KJELLÉN AND SUE SHELDON (Camden, N.J., U.S.A. and Lund, Sweden) (Rec'd December 9th, 1970) . . . . .	191-196
Continuous exposure of HeLa cells to caffeine by P. S. THAYER, P. HIMMELFARB, R. H. LISS AND B. L. CARLSON (Cambridge, Mass., U.S.A.) (Rec'd January 20th, 1971) . . . . .	197-203
Test of a hypermutability model in <i>Salmonella typhimurium trpA47S</i> by R. W. HEDGES (London, Great Britain) (Rec'd January 6th, 1971) . . . . .	204-206
Genetic expression in whole cells of heterozygous replicative-form molecules of $\Phi$ X174 by VIRGINIA MERRIAM, FRED FUNK AND ROBERT L. SINSHEIMER (Pasadena, Calif., U.S.A.) (Rec'd February 9th, 1971) . . . . .	206-210
Interaction of chromosome breaks in spermatids and spermatocytes of <i>Drosophila melanogaster</i> by B. LEIGH (Leiden, The Netherlands) (Rec'd March 3rd, 1971) . . . . .	211-213
Absence of chromosome aberrations in cultured human leukocytes treated by two metal chelators—deferoxamine and penicillamine by B. K. VIG AND E. J. EYRING (Reno, Nevada, and Columbus, Ohio, U.S.A.) (Rec'd March 22nd, 1971) . . . . .	214-218
Evidence against a cytogenetically radioresistant spermatogonial population in male mice by A. G. SEARLE, E. P. EVANS AND C. V. BEECHY (Harwell, Didcot, Berks., Great Britain) (Rec'd February 17th, 1971) . . . . .	219-220

- Differential photoreversibility of ultraviolet-induced premutational lesions in *Neurospora*  
by F. J. DE SERRES AND B. J. KILBEY (Oak Ridge, Tenn., U.S.A.) (Received March  
1st, 1971) . . . . . 221-234
- Action of acriflavine on growth and mutation in yeast  
I. Nitrogen sources affecting the mutation induction  
by YUTAKA ARAKATSU (Kōbe, Japan) (Rec'd December 14th, 1970) . . . . . 235-248
- Alterations in the nuclear cycle, mitotic index and chromosomes of *Vicia* as affected by  
diethyl sulfate  
by ROBERT E. HEINER (St. Paul, Minn., U.S.A.) (Rec'd April 4th, 1971) . . . . . 249-254
- The genetic effects of mitomycin C in *Drosophila melanogaster*  
I. Induced mutations and X-Y chromosomal interchanges  
by MICHAEL J. SCHEWE, DAVID T. SUZUKI AND UDO ERASMUS (Vancouver, B.C., Canada)  
(Rec'd March 8th, 1971) . . . . . 255-267
- The genetic effects of mitomycin C in *Drosophila melanogaster*  
II. Induced meiotic recombination  
by MICHAEL J. SCHEWE, DAVID T. SUZUKI AND UDO ERASMUS (Vancouver, B.C.,  
Canada) (Rec'd March 8th, 1971) . . . . . 269-279
- Fitness of heterozygotes of deleterious recessive mutations in the mouse  
by EARL L. GREEN (Bar Harbor, Maine, U.S.A.) (Rec'd February 1st, 1971) . . . . . 281-289
- Estimates of the genetic risks from ionizing irradiation  
by K. G. LÜNING AND A. G. SEARLE (Stockholm, Sweden, and Harwell, Didcot, Berks.,  
Great Britain) (Rec'd February 26th, 1971) . . . . . 291-304
- Radiation-induced human chromosome aberrations: *in vitro* dose rate studies  
by J. G. BREWEN AND H. E. LUIPPOLD (Oak Ridge, Tenn., U.S.A.) (Rec'd April 1st,  
1971) . . . . . 305-314
- Streptomycin resistance in *Bacillus megaterium*  
by DAVID EWING (Austin, Tex., U.S.A.) (Rec'd February 9th, 1971) . . . . . 315-319
- The influence of the temporal distribution of the X-ray dose on the induction of X-chro-  
mosomal nondisjunction and X-chromosome loss in oocytes of *Drosophila melanogaster*  
by H. TRAUT (Münster, Germany) (Rec'd March 3rd, 1971) . . . . . 321-327
- Allelism tests of mutants affecting sensitivity to radiation in yeast and a proposed no-  
menclature  
by J. C. GAME AND B. S. COX (Oxford, Great Britain) (Rec'd April 5th, 1971) . . . . . 328-331
- Modification of mutagenic efficiency of ethyl methanesulfonate  
by A. S. KHALATKAR, A. R. GOPAL-AYENGAR AND C. R. BHATIA (Bombay, India)  
(Rec'd February 26th, 1971) . . . . . 331-334
- A microbial assay for detecting chemical mutagens in tissue homogenates  
by G. FICSOR AND E. MUTHIANI (Kalamazoo, Mich., U.S.A.) (Rec'd March 9th, 1971) . . . . . 335-337
- Effects of caffeine on the induction of mutations in Chinese hamster cells by ultraviolet  
light  
by JAMES E. TROSKO AND ERNEST H. Y. CHU (Oak Ridge, Tenn., U.S.A.) (Rec'd April  
8th, 1971) . . . . . 337-340
- Effect of UV irradiation and  $^{32}\text{P}$  decay on thymineless death in *E. coli* 15  
by P. MUKHERJEE, NATI MUKHERJEE AND S. B. BHATTACHARJEE (Calcutta, India)  
(Rec'd March 15th, 1971) . . . . . 341-347
- Induction of mutation by 5-fluorouracil and amino acid analogues in *Ustilago maydis*  
by C. M. LEWIS AND G. M. TARRANT (London, Great Britain) (Rec'd April 13th, 1971) . . . . . 349-356
- Induction of cytoplasmic "petite" mutation by antibacterial antibiotics  
by FRANCESCA CARNEVALI, LUISA LEONI, GIORGIO MORPURGO AND GIUSEPPE CONTI  
(Rome, Italy) (Rec'd April 13th, 1971) . . . . . 357-363
- Effects of dehydration on the sensitivity of yeast to ultraviolet light  
by KOTARO HIEDA (Tokyo, Japan) (Rec'd February 12th, 1971) . . . . . 365-380
- Association of three highly mutable genes involving pigmentation in *Antirrhinum majus*  
by BRIAN J. HARRISON (Norwich, Great Britain) (Rec'd March 15th, 1971) . . . . . 381-390
- Recovery or increase of induced genetical effects dependent upon the moisture content  
of stored *N*-methyl-*N*-nitrosourea-treated barley seeds  
by T. GICHNER, J. VELEMÍNSKÝ AND V. POKORNÝ (Prague, Czechoslovakia) (Rec'd  
April 14th, 1971) . . . . . 391-396

The ratio of chemically induced chromosome aberrations to gene mutations in barley. A critical study by G. KÜNZEL (Gatersleben, Germany) (Rec'd March 26th, 1971) . . . . .	397-409
Studies on the induction of translocations in mouse spermatogonia IV. Effects of acute gamma-irradiation by A. G. SEARLE, C. V. BEECHEY, E. P. EVANS, C. E. FORD AND D. G. PAPWORTH (Harwell, Berks., Great Britain) (Rec'd March 24th, 1971) . . . . .	411-416
Trenimon-induced chromosomal damage in bone-marrow cells of six mammalian species, evaluated by the micronucleus test by B. MATTER AND W. SCHMID (Zürich, Switzerland) (Rec'd March 23rd, 1971) . . . .	417-425
Failure of alkylated HEp.2 cells to replicate newly synthesized DNA by MARIE COYLE, MARY McMAHON AND B. STRAUSS (Chicago, Ill., U.S.A.) (Rec'd March 1st, 1971) . . . . .	427-440
Nature of chromosome aberrations induced in pre-DNA-synthesis period in human leukocytes by daunomycin by B. K. VIG (Reno, Nevada, U.S.A.) (Rec'd March 15th, 1971) . . . . .	441-452
Repair of alkylation damage in ultraviolet-sensitive (xeroderma pigmentosum) human cells by J. E. CLEAVER (San Francisco, Calif., U.S.A.) (Rec'd February 28th, 1971) . . . .	453-462
Caffeine and 8-ethoxycaffeine produce different types of chromosome-breaking effects depending on the treatment temperature by B. A. KIHLMAN, K. NORLÉN, S. STURELID AND G. ODMARK (Uppsala, Sweden) (Rec'd May 14th, 1971) . . . . .	463-468
Mutagenicity of <i>N</i> -nitrosomorpholine in the host-mediated assay by ERROL ZEIGER AND MARVIN S. LEGATOR (Washington, D.C., U.S.A.) (Rec'd January 25th, 1971) . . . . .	469-471
Mutagenicity tests with cyclohexylamine in the mouse by B. M. CATTANACH AND C. E. POLLARD (Harwell, Didcot, Berks., Great Britain) (Rec'd April 6th, 1971) . . . . .	472-474
Author Index, Vol. 12 (1971) . . . . .	475-476
Subject Index, Vol. 12 (1971) . . . . .	477-481
Contents, Vol. 12 (1971) . . . . .	483-486
Errata . . . . .	487
Announcement . . . . .	487
